C.R. Martin Construction, Inc.

Letter of Recommendation

I want to say that Craig from Rockwell Site Services has provided us with the best construction clean up we have seen. We have used him in numerous jobs including small and big projects located throughout Orange County, Los Angeles County, Inland Empire, etc. A Health Inspector on one of our jobs in Los Angeles said that his was the cleanest job she had ever inspected. He is very flexible on the time, date when you need his services. His prices are very competitive and if is higher his quality of work is well worth the price. I truly will recommend Craig to any contractor that needs his clean up services.

P.S. Craig Good Job on everything

Thank You
